

## Repair and Calibration Quantity Discount Program

Wouldn't it be great to receive one monthly bill that reflects significant savings for your 8100 and 8100T series monitor repairs and calibrations?

EDR is pleased to offer a quantity discount to our customers who take advantage of our repair and calibration services. The program is simple. At the end of each month, the number of units that EDR repaired and calibrated is totaled per category. The appropriate discount is then applied to the total number of units in each category according to the table below.

How are the discounts applied? Let's say there were a total of 6 monitors sent to EDR in a given month. Three needed calibration only, two needed normal repair, and one was a dropped monitor repair. The three calibrations are billed at \$237.50 each. Of the remaining three monitors, two were normal repairs and are billed at \$654.50 each, and one was a dropped monitor and is billed at \$902.50. The total savings for the month is \$316.00!

What if you have monitors all over the country? No problem. The only requirement is that you have a single billing address.

To participate in this great discount program, please complete the registration form, fax it to the number below and an EDR representative will contact you.

<b>Repair: Qty Per Month (Received)</b>	1	2	3	4	5	6	7+
Repair, Rate* Each	\$770	\$770	\$654.50	\$616	\$577.50	\$539	\$500
<i>Repair, savings each</i>	0	0	\$115.50	\$154	\$192.50	\$231	\$270
